Dear Mr. Vergheese Joseph,

I would like to congratulate your team on their successful participation in the delivery of our 70 seat trading operation in the DIFC's Gate Village Precinct. The project achieved its goal in that Arqaam Capital 'went live' within its target three-month period. Considering the circumstances, this was a considerable achievement for which we should all take pride.

I would also like to use this opportunity to confirm our satisfaction regarding the performance of Pentagon's **Inframax 53 heat shielding film**. It has already been seen to assist in the delivery of a critical requirement – climate control and optimal temperatures for our offices and trading floor.

Wishing you continued success,
