

Who is Pentagon International?

Formed in July 2007 Pentagon International FZCO is amongst the world leaders in the supply and installation of specialist window films and retention systems designed to enhance the safety, aesthetics and energy saving characteristics of Glass.

Pentagon International is currently based out of Dubai in the United Arab Emirates from within the Jebel Ali Free Zone. We have already established ourselves as a trustworthy supplier in the UAE, having completed contracts for large corporate firms including multi-national banks in the region, International chains of hotels, multi-national companies, Government organizations and Dubai International Airport.

Our Range of Products of Windows Films:

- **Safety and Security Films** – fully tested to absorb blast impact of 100kgs TNT at 32 Meters.
- **Energy Efficient Films** – high spec to reduce heat by 60%, permit 70% natural light transmission
- **Solar Control Films** – to control heat, glare and light issues.
- **Privacy Enhancing films** – frosted opaque films in white and colours available.
- **Graphics and Manifestation films** (Bespoke design possible) – custom graphic design.
- **Edge Retention / Anchoring Systems** - to anchor glass & film to the frame.

Pentagon International has an experienced team using state of the art automated high end technology for sourcing, supply, installation, distribution, project management and sales. There are technical heads of each department; sales, operations and project teams. Besides having access to latest products which conform to the highest international standards, (ISO, BS, GSA and CEN Standards) our competence is proven in the delivery of top quality project control from start to finish with all of our products.
