

To,

PENTAGON INTERNATIONAL

This is to confirm that you have carried out bomb film installation (FT800 Clear Film) to all glazing facing the race track at our F1 Grand Prix in Malaysia in the past year, and more recently solar control film to the tune of 1200 square meters at our property. Though the installation at our race track stadium glass was a slanting façade the care and precision of the Pentagon International Project management team using their unique project management processes to carry out the installation is truly commendable.

The standard of workmanship, Health & Safety documentation and general communication between ourselves has been excellent, and I would therefore have no hesitation in recommending your company to others.

Your sincerely,

Azhar Abd Rahman,
Engineering Manager,

SEPANG INTERNATIONAL CIRCUIT SDN. BHD.
