

Global Leaders in the Supply & Installation of Solar, Security and Energy Efficient Window Films

MIDDLE EAST - ASIA - INDIA

PENTAGON SOLUTIONS FOR ANY BUILDING PROBLEM..

Window film provides an immediate solution to many problems normally associated with glass and glazing. Increasing safety, security and blast protection, reducing solar heat gain and glare and cutting harmful UV rays by 99% are just some of the benefits of window film.

PROTECT LIVES

Glazing is the weakest point of any building during blast attack, vandalism, accidental breakage or natural disasters. Pentagon International has the solution to protect your staff, clients and business.

REDUCE ENERGY COSTS

Pentagon International's window film is recognized as one of the most energy efficient products in today's market. Reduce your carbon footprint, increase your energy efficiency and save money with us.

SOLVE PROBLEMS

Reducing glare by up to 94%, solar heat gain by up to 79% and rejecting 99% of UV rays for reduced fading and fabric deterioration, solar control window film from Pentagon International will also help to reduce energy consumption whilst improving visual privacy and aesthetics.

IMPROVE WORK ENVIRONMENT

Pentagon International's selection of frosted, coloured and patterned decorative films offer visual enhancement and privacy to existing glazing. With our custom graphic printing we ensure the possibilities are endless; from company logos to full scale curtain wall designs.
